CD - Clear Diffuse

WTD - Wheat Diffuse

Square Bevel and Pinhole Finishes

W - White Paint

BD - Black Paint

Round Reflector trims (3DP) are anodized with an Alzak finish.

Square Reflector trims (3SQD), as well as Bevels (3DBV, 3SQDBV) and Pinhole (3DPIN, 3SQDPIN) style trims are coated with a custom developed wet paint to match the anodized finish as close as possible.

Custom finishes are available. Textures of custom finishes are dependent on the finish material specified. Please consult factory.

Note: These color finishes were rendered from actual trim samples. Some colors, however, may vary slightly from actual appearance due to rendering materials used, printing variations and limitations.
